NEWS RELEASE

September 14, 2006

TSX-VENTURE: SBX

**Juan de Fuca Cable -
*British Columbia Utilities Commission Grants Participant Cost Award***

Sea Breeze Power Corp. is pleased to announce that its subsidiary, Sea Breeze Victoria Converter Corporation (“Sea Breeze VCC”) has been granted a Participant Assistance/Cost Award in the amount of \$251,724.94 by the British Columbia Utilities Commission (“BCUC”) for its intervention in the recent Vancouver Island Transmission Reinforcement Project (“VITR”) proceeding.

Sea Breeze intervened in the VITR proceeding in July 2005, in order to demonstrate the Juan de Fuca Cable Project (“JDF”) as a more cost-effective, environmentally sound, and superior alternative to meeting Vancouver Island’s transmission needs.

The JDF Project is a 550 megawatt High Voltage Direct Current (“HVDC”) Light® transmission cable that would connect Vancouver Island and Washington State’s Olympic Peninsula. The Cable will be buried underground and will not emit a fluctuating electromagnetic field (EMF).

On September 7, 2006, the JDF Project received approval from Canada’s National Energy Board (“NEB”), marking the first merchant international transmission line approved by the NEB. The NEB’s approval is a significant step towards bringing JDF on-line by Fall 2008.

HVDC Light® technology is environmentally sound, and the JDF Project is designed to have minimal environmental impacts. HVDC Light® cables have solid insulation and do not pose any danger of coolant leaks or spills, which is a common occurrence in older AC technology. As well, HVDC Light® cables do not emit fluctuating electromagnetic fields (EMF), which is an especially valuable attribute both in sensitive marine habitats, and in populated residential communities, where the cable can be safely and inexpensively sited underground.

The Participant Assistance/Cost Award will enable Sea Breeze VCC to recover some of the costs associated with its participation in the BCUC hearing. For more information about the JDF project, please visit: www.jdfcable.com.

ON BEHALF OF THE BOARD OF DIRECTORS

“Paul B. Manson”
